How to Purchase and Activate Leawo Blu-ray Recorder

Сору

Leawo Blu-ray Recorder Copy provides free trial version and registered version. Both versions have no differences in function. But there are indeed some differences between these 2 versions:

- Free trial version is valid for 30 days only. When the free trial version expires, encrypted BDAV files won't be loaded and read. Only non-encrypted BDAV files could be loaded and handled.
- Free trial version copies and backs up the first 5-minute content of source BDAV files only. You could purchase license of Leawo Blu-ray Recorder Copy and activate it to break these limitations.

How to Copy BDAV File with Leawo Blu-ray Recorder Copy

Leawo Blu-ray Recorder Copy is a professional BDAV copy software tool that could help you decrypt and copy BDAV files to blank BD50/BD25 disc or computer hard drive without quality loss, regardless of disc protection and types. Check the below guide to learn how to copy homemade/recorded Blu-ray files with Leawo Blu-ray Recorder Copy.

Step 1: Enter Leawo Blu-ray Recorder Copy module

To copy BDAV files, you need to prepare the below things first:

- Readable Blu-ray drive connected to your computer for BDAV disc copy and backup.
- Source BDAV disc, folder or ISO image file for backup.
- Computer with Internet connection.
- Blank writable Blu-ray discs (BD50/BD25) for copying BDAV file to disc, or computer hard drive with enough space for copying BDAV file to computer.

Note: Leawo Blu-ray Recorder Copy supports BD50 to BD50 and BD25 to BD25 backup only. So, prepare a blank Blu-ray disc according to the source Blu-ray disc type for BDAV disc backup.

Download and install Leawo Blu-ray Recorder Copy on your computer. Leawo Blu-ray Recorder Copy is a module built in Leawo Prof. Media.

After installing Leawo Prof. Media on your computer, kick it off. Click the "Copy" tab on the top or "Blu-ray Recorder Copy" option in the middle to enter the Blu-ray Recorder Copy module.

Step 2: Add source BDAV files

On the "Copy" tab, click the "Add UHD/Blu-ray/DVD" drop-down button and then click "Add from

CD-ROM", "Add from folder" or "Add iso file" option according to your needs.

After loading source BDAV file, you need to choose the output disc type from the bottom left corner. Choose the disc type (BD-50 or BD-25) according to the source Blu-ray type. You could also play back loaded BDAV titles, view all loaded titles, subtitles and audio tracks for backup. The output will retain all elements in source BDAV file in Full Movie mode.

Step 3: Specify copy settings

With source BDAV files loaded, click the green "Copy" button to call out the copy setting panel. On the popup sidebar, you need to specify some copy settings, including "Copy to", "Disc Label" and "Save to" options. Choose to copy BDAV file to folder, ISO file or blank disc under the "Copy to" option according to your needs, name the "Disc Label" and set the "Save to" directory. It will show you how much space the backup requires and how much free space the target drive has.

The clickable drop-down button right next to the folder icon refers to how many copies you want to get for output, which could only be clickable for copying BDAV file to Blu-ray disc.

Note: If you haven't activated Leawo Blu-ray Recorder Copy module, there will be a "Notice" showing you the limitation of free trial version of Leawo Blu-ray Recorder Copy module. You could purchase and activate it, or take a try of the free trial version by clicking "Agree" option.

Step 4: Start copying BDAV file
