## Leawo Music Recorder Mac User Guide

**Leawo Music Recorder for Mac** provides an easy-to-use but quite useful solution for Mac users to record music on Mac. It could record built-in input audios, computer stream audio and online music and then save in MP3, M4A and WAV formats for music sharing and enjoying. The internal recording task scheduler allows people to schedule music recording, while the built-in music tag editor allows people to edit music tags like artist, album, album artwork, song name, etc. to perfect recordings. Of course, as smart music recordings software for Mac, Leawo Music Recorder for Mac could automatically download and add music tags to perfect info for recorded music files. With Leawo Music Recorder for Mac, you could get all music for totally free on Mac computer and then apply the recordings to iTunes for enjoying or sharing at will.

- g. Quit LeawoMusicRecorder: exit the software.

### 2. How to Register Leawo Music Recorder for Mac

Step 1. Purchase Leawo Music Recorder for Mac. You can complete the purchase in 2 ways:

a. Purchase Leawo Music Recorder for Mac from the official site. Just visit the official site and

click the "Buy Now"

button to enter the purchase page.

b. Choose "Help > Buy" option on the menu to access the purchase page.

Buy Now

Step 2. After going into the purchase page, you can find two kinds of licenses. Choose the license

you need and click **Check Out Now**. Then fill in your contact information to proceed and choose a payment method to pay for the license.

**1** Year License (1 PC/Mac): the license will be valid within 1 year. One license could only be used on one computer.

Lifetime License (1 PC/Mac): the license is only valid on 1 PC or Mac and updates will be free.

Step 3. You will receive an e-mail with the registration info which sent by our system automatically once your order is validated. Then check your e-mail to get the registration code of Leawo Music Recorder for Mac.

Step 4. Launch Leawo Music Recorder for Mac, then choose "Help > Register" option on the

menu. Enter the registration code and click **"Register"** button on the pop-up panel to finish the registration.

### 3. How to Record Audio on Mac

#### Step 1. Set Audio Source

Run Music Recorder for Mac and you need to set the audio source for different scenes. Click the

"Audio Source" button and there will pop up Audio Source Preferences window. Then under Audio Source tab, pitch on Record Computer Audio to record computer audio stream or online music. However, to record audio input, you can choose Builtin Microphone, Built-in Input, or System Audio Recorder. Just pitch on Record Audio Input and

> Built-in Microphone Built-in Input ✓ System Audio Recorder

choose one in the drop-down list

#### Step 2. Set Output Format

Switch to the "**Format**" tab, and then you can choose MP3, M4A, or WAV format as output format by clicking the format drop-down box beside "Output Format" label. Moreover, you can

customize audio parameters including Audio Codec, Bit Rate, and Sample Rate in the Audio Setting box.

### 4. How to Edit Music Tags Manually

In general, Leawo Music Recorder for Mac would automatically download and add music tags to recordings, including artist, song name, album artwork, album, etc. But if you're not satisfied with the results, or the program fails to recognize the recorded music files, you can edit them manually.

Step 1. Choose the recorded music with the tags you want to edit in the **Library** or **PlayList** and right-click on it. Then choose "**Edit Music Tags**" in the pop-up menu.

Step 2. On the "**Music Tags Edit**" panel, edit the music tags including artist, song name, album artwork, album, etc. Finally, click **OK** to save your modification.
