

Introduction

Leawo DVD Creator is a powerful DVD backup tool for people to back up their DVD contents with ease. It's capable of backing up DVD disc, folder and ISO image files. It can remove DVD disc protection thus allowing you to back up whatever disc you like freely. You can use it to back up your DVD disc to either your hard drive or a blank disc or directly copy ISO image file to a blank DVD disc.

Part 1: How to Register

1. How to register

1.1. Click the **Register** button at the top-right to call out the **Activation Center**, If you have already bought the registration code, enter it in the code box to activate the DVD Copy module. If you haven't, click the **Purchase** button of DVD Copy on the module list below to go to the purchase of the program.

1.2. Another way to register is to click the **Help** button to call out the **Help Center**, and then click **Register** if you have the code. Or click **Purchase** to go to the Purchase page and get the registration code. (You can also click the **Help** button on the top-right corner to call out the **Help Center**, and click Register to call out the **Activation Center** if you have the registration code. If you don't, click the **Purchase** button in **Help Center** to go to the purchase page to get them)

2. How to get registration code

Click the **Purchase** button in **Help Center** to open the purchase page of Leawo Prof. Media with your default web browser. On the page you can get the license of all modules included in Prof. Media or a single module. To get the license of the DVD Copy module, just cancel the selection of other modules and choose the license validation between 1-year and lifetime (You get the DVD Copy module for free if you purchase the Blu-ray Copy module). And then click **Check Out Now**

button at the bottom of the page to go to the payment page.

Part 2: How to backup DVD disc

Step 1: Open DVD Copy

Run Prof. Media, click **DVD Copy** tab to enter DVD Copy module.

Step 2: add source DVD/ISO file to the program

Click “Add Blu-ray/DVD” button(Note: if you get the DVD Copy module, you can only import DVD files). On the following drop-down menu:

1. Click “Add from CD-ROM”  to import DVD files from your CD-ROM.
2. Click “Add from folder”  to import DVD folder from your computer.
3. Click “Add ISO file”  to import ISO image file.

Also you can perform all the aforementioned action by directly dragging and dropping source file to the interface.

Step 3: DVD Copying settings

1. Set disc type

After importing the source DVD/ISO files, click  to choose **Disc type** for the backup between DVD-9 and DVD-5.

2. Choose copy mode

There are 3 copy modes provided: **Full Movie**, **Main Movie** and **Custom Mode**

- Choose **Full Mode** to copy contents of the whole disc;
- Choose **Main Movie** for Movie-only backup;
- Choose **Custom Mode** to back up whatever chapters of video content in the disc.

3. Select subtitles and audio track

Subtitle and Audio Tracks included in the disc will all be listed under **Subtitle** and **Audio** Option

. Choose the subtitle and audio track you want for backup.

The size of the output file would be shown at the bottom of the interface on this indicator.

Step 4: Start the copy

- Click the big green **“Copy”** button  on the top-right to call out the sidebar for backup settings.

a. **"Copy to"** is for copying DVD/ISO file to a blank disc. Insert a writable blank disc into the CD-ROM in your computer and select it as the destination of the backup under **"Copy to"** option.

b. **"Save to"** option is for saving the Blu-ray/DVD content as a folder or ISO file to your hard drive. Check either **"Folder"** or **"ISO File"** to save DVD content in a folder or as an ISO file to your computer. And set the directory for the backup in the box below **Save to** option.

2. Click the **"Copy"** button at the bottom of the sidebar to start backing up the DVD contents.

Part 3: Help Center

Click “**Help Center**”  button at the top right corner to open “**Help Center**”.

a. Click **Home**  button to open the product page of Leawo Software with your default web browser.

b. Click **Tutorial**  button to go to the user guide page of different function modules in Prof. Media.

c. Click **Bug Report**  to report the bugs you came across while using our product so that we can fix them for you as soon as possible. You’ll need to put in your name, E-mail address, description of the bug and if some specific files are involved, the files.

d. Click **Check Update**  button to check for the latest updates.

e. Click **Purchase**  button to go to the purchase page and get the one-year or lifetime license.

f. Click **Register** button to input the registration code and activate the module after you purchase the product.

g. Click **Rate It** to go to the product page and rate and comment on the program .

h. Click **Support** button to go to the support page of Leawo Software where you can find all the FAQs and user guides about Prof. Media.

i. Click **About** to check out information about Leawo Prof. Media.
